suggest me some excris

Are you beginner, intermediate, or advanced?

intermediate

How many days per week can you train?

6

Excellent! For intermediate weight loss, 6 days/week:

Day 1,3,5: Strength training (e.g., full body or upper/lower split) - 3 rounds per day. Day 2,4,6: Cardio (e.g., HIIT or steady-state) - 3 rounds per day. This mix boosts metabolism and burns fat. Ready to dive into details for a day?

how to do steady-state

Are you beginner, intermediate, or advanced?

beginner

How many days per week can you train?

8

For weight loss, aim for 30-45 minutes of steady-state cardio (brisk walk/light jog) for 1 round per day, 5-6 days a week. Maintain a pace where you can comfortably talk. Remember to include rest days for recovery. Want to know more about the exercises?

diet plan

Do you prefer veg or non-veg?

non-veg

Here's a short non-veg Indian diet plan for you:

Breakfast: 2-3 scrambled eggs with veggies or a bowl of oats with skim milk. Lunch: 1-2 whole wheat rotis, chicken/fish curry (less oil), and a serving of mixed vegetables. Snack: A handful of

nuts or a glass of buttermilk. Dinner: Grilled chicken/fish (150g) with a large vegetable salad or clear lentil soup.

i am feeling lazy should i go gym

That lazy feeling is temporary, but your weight loss goal isn't. Push past it, and you'll feel incredible for taking that step!
